

## Electrical Equipment Maintenance and Testing (2377) â€™ Portable Appliance Testing (PAT Testing) Level 3

### In a nutshell

On this practical course you'll learn, develop and practise the skills needed to test portable electrical appliances with the Code of Practice for In-Service Inspection and Testing of Electrical Equipment. If you're already an electrician it adds another string to your bow to help you move up in the industry.

### This course is for...

...anyone responsible for the maintenance of electrical equipment or undertaking practical inspection and testing of electrical equipment

### Course content

There are two parts to the qualification:

Code of Practice for In-Service Inspection ET(2377-22) Level 3 Award in the In-Service

## COURSE INFORMATION LEAFLET

Inspection and Testing of Electrical Equipment – this enables you to undertake practical inspection and testing of electrical equipment  
Code of Practice for In-Service Inspection ET(2377-32) Level 3 Award in the Management Requirements for the Maintenance of Electrical Equipment – so if you're responsible for the maintenance of electrical equipment you'll have a better understanding of the practical application of your safety obligations.

After this course, you could choose to move on to the Level 3 Award in the Requirements for Electrical Installations BS 7671: 2008 (2382-12) - 17th Edition, the Level 3 Award in the Initial Verification and Certification of Electrical Installations (2394-01) or the Level 3 Award in the Periodic Inspection, Testing and Certification of Electrical Installations (2395-01).

### Entry Requirements

There are no formal requirements, but you should be a practising electrician either involved or looking to be involved in the inspection and testing of electrical equipment (e.g. portable appliances) or managing the inspection and testing process.
