

## E-Learning MCSA Windows Server 2012 - Administering Windows Server 2012 (70-411)

### In a nutshell

A Personal Learning Account is a new initiative from the Welsh Government. It is a free and flexible way to learn. The initiative will offer people the chance to access free, part-time courses that offer flexible and convenient learning around their existing lifestyle.

The Windows Server system is one of the most reliable in the world. The scalability and robust nature of the servers make it one of the most popular ways to manage a corporate IT infrastructure. Servers are a vital part of the day-to-day operations in any business.

The skills learned in this Administering Windows Server 2012 course will help you to build a technical career in the IT industry, using one of the world's most recognisable skillsets in a globally renowned technology.
