

E-Learning MCSA Windows Server 2012 - Installing and Configuring Windows Server 2012 (70-410)

In a nutshell

A Personal Learning Account is a new initiative from the Welsh Government. It is a free and flexible way to learn. The initiative will offer people the chance to access free, part-time courses that offer flexible and convenient learning around their existing lifestyle.

The server is a main hub of activity in any business's IT facility, and the ability to install and configure a server effectively is a vital skill in the arsenal of any IT professional who wants to be taken seriously. Windows Server 2012 is still seen as one of the most popular versions of Microsoft's server products in the corporate world, with companies of all sizes still utilising the benefits it offers.

Becoming qualified in the installation and management of Windows Server 2012 will showcase your ability to run a secure, efficient computing environment, either for your own business, or for your clients as an independent IT service provider. These skills are in high demand as every business needs to be online with an efficient infrastructure to run at maximum capacity.

This course is for...

Apply online at www.coleggwent.ac.uk
