

UAL Diploma in Art and Design (Art and Design, Photography, Fashion and Textiles) Level 3

In a nutshell

This new and innovative 2-year course helps you to find out what interests you most in art and design and to develop some of the essential skills that underpin creative disciplines.

This course is for you if...

- ... you're creative
- ... you want to develop practical skills
- ... you want a course that reflects industry experience

What will I be doing?

We are excited to be an approved centre for the University of the Arts London (UAL) awarding body. This course will encourage and stretch you to communicate visually, think conceptually

and develop problem solving and practical techniques.

With access to professionally equipped art and design workshops and studios, you'll learn through experimentation using a broad range of 2D, 3D and digital processes. Projects will help you to gain a contextual understanding of art and design and support you to make and articulate your personal journey and interpretations. Throughout your journey you'll be taught and supported by tutors with extensive skills, knowledge and experience of industrial practice and education within the creative arts. Throughout the year, you'll be encouraged to develop personal affinities and interests. In term 3, you'll negotiate a self-initiated project, enabling you to identify a more specialist area of interest, such as fashion and textiles, fine art, 3D design, photography or IT.

You'll be assessed through coursework and, upon completion, you'll achieve:

Level 3 Art and Design
