

EAL Diploma Plumbing and Heating Level 3

In a nutshell

You'll cover many areas within plumbing and domestic heating to equip you with advanced plumbing knowledge and skills.

This course is for you if...

- ... You want to gain skills and knowledge necessary for plumbing
- ... You want an advanced and in-depth study
- ... You enjoy practical learning but also appreciate theoretical study

What will I be doing?

Units include:

Health and safety in building services engineering

COURSE INFORMATION LEAFLET

Understand the fundamental principles and requirements of environmental technology Systems

Plumbing system installation planning

Complex cold-water systems

Domestic hot water

Sanitation and drainage systems

Central heating systems

Domestic gas principles

Career awareness in building services engineering

This course will equip you with the skills needed to lead directly into employment and completion of NVQ. It offers you the chance to develop your skills and knowledge to a high standard recognised by the industry.

The course is delivered by both practical sessions in excellent workshop facilities, along with theory lessons to underpin the knowledge learnt in the practical sessions.

You'll be assessed through practical projects, written and online tests and once complete, you'll have:

Diploma Plumbing & Heating Level 3

Appropriate supporting qualifications to broaden your skill set and meet the needs of industry

[Skills Activities](#)

[Maths and English](#)

What is expected of me?

To enrol on the course, you'll need a Level 2 Diploma in Plumbing Studies, completed to an agreed standard.

You need to have a desire to work in the construction industry. Full commitment to attendance is required, as is respect for others, enthusiasm for the subject and self-motivation. You'll be continually assessed and there is an expectation that you'll continue your studies and coursework during your own time.

What comes next?
