

Drone Flying Masterclass

In a nutshell

Drone operators are in demand. With such amazing technology available at affordable prices, the creative industries are embracing the opportunities of using drones at part of the production process.

This course is for...

Anyone with an interest in videography, photography and drone operation.

Course content

This course will offer a unique opportunity to study the following:

When to use a drone – as part of the production process and their limitations.

Drone movement and techniques – how to manoeuvre your drone and maximise its capabilities.

COURSE INFORMATION LEAFLET

Planning the shoot from ground to air – how to create effective pre-production materials and understand the demands of a director or D.O.P.

Getting the right shot- location tips and how to get an insight into choosing the right angles; where to stand; how to communicate with others on location (if appropriate), and how to safely complete your operations in line with the CAA regulations.

Selecting the right equipment – finding equipment that will be most appropriate for the job and the right drone for you.

Preparing for the edit – consider how to gather the correct footage for post-production and provide guidance on what is required for successful edits.

The course will be a mixture of theoretical seminars and practical applications (weather permitting). Also, you will have access to a state of the art studio and editing suites.

Entry Requirements

An interest in drones and becoming a skilled operator is essential. It is also advisable to bring the following:

- Your drone
- Fully charged batteries (and charger)
- Your drone 's camera(s) if not integrated with the system

Additional information

Please wear appropriate clothing for the season (including sensible shoes) and a pair of sunglasses when you are out on location.

Lunch and refreshments will be provided in a break-out room.

Course fees: £295
