

City & Guilds Award in the Safe Use of Brush-cutters and Trimmers Level 2

In a nutshell

Widely used in garden and grounds maintenance as well as agriculture and woodland management, brushcutters and trimmers need careful handling and regular maintenance – which is where this course is ideal.

This course is for...

- ...working in agriculture
- ...a career in landscape gardening or grounds maintenance
- ...those wanting to work outdoors

Course content

This NPTC course is for professional users and teaches the practical skills and underpinning

COURSE INFORMATION LEAFLET

knowledge around legislation, risk assessments, safe operation and machine maintenance for:

Brushcutters
Trimmers

On completion you'll be assessed for the Certificate of Competence, a qualification recognised by the Royal Forestry Society in Arboriculture. This will enable you to work for councils or in garden maintenance, or go on to other agriculture courses.
