

## Photoshop for Beginners

### In a nutshell

This course will introduce you to Adobe Photoshop and will give you the skills to professionally edit your photographic images.

### This course is for...

- ...you have a strong interest in Photography.
- ...you want to professionally edit your images.

### Course content

This short 10 week course is structured to provide you with a range of different editing skills that are capable with the software Adobe Photoshop. You will start by learning the basics of photo editing adjustment from changing the lighting, temperature and colour depths of your image to more advance editing such as blending of layers & photo montage. We will also explore other editing elements such as Black & White & sepia tone.

# COURSE INFORMATION LEAFLET
