

Cskills Awards Site Safety Plus Health and Safety Awareness

In a nutshell

There are many potential hazards working on site, and this course provides practical advice on keeping yourself and your colleagues safe. It covers your individual and employer's responsibilities, including what you can do if you think anyone's health and safety is being put at risk.

This course is for...

...anyone working in the construction and civil engineering industry

...providing you with the evidence you need to apply for a CSCS labourer / green card, alongside the CITB Health, Safety and Environment Test

Course content

The course takes place over 1 day (7 hours), and is designed to give you an understanding of:

COURSE INFORMATION LEAFLET

the need to prevent accidents
health and safety law
how your role fits into the control and management of the site
risk assessments and method statements
performing safely and asking for advice
how to report unsafe acts to prevent an accident

You'll be assessed through multiple-choice questions, and your level of interaction during the course.

Entry Requirements

There are no formal entry requirements.

Additional information

A natural next step on completion would be to progress onto the Site Supervisors Safety Training Scheme (SSSTS) course.

DUE TO COVID 19, THIS COURSE IS BEING DELIVERED REMOTELY.

All participants will need to have good internet connection and a laptop or PC with audio and web cam function.
