

City & Guilds Foundation in Electrical Installation Level 2

In a nutshell

On this course you'll learn basic electrical and plumbing skills as well as the knowledge to back it up. You'll be supervised as you undertake various practical and knowledge-based activities.

This course is for you if...

- ...you'd like an introduction into plumbing to lead into further education
- ...you would like to gain electrical skills
- ...you like a practical course that's hands-on

What will I be doing?

This course is ideal for anyone looking for an introduction to the plumbing and electrical industry who wishes to undertake a course which will act as a pathway to further studies in this area. It will give you the opportunity to pick up some core skills and knowledge, along with

COURSE INFORMATION LEAFLET

the opportunity to progress onto either our Level 2 or 3 plumbing or electrical qualifications. The qualification enables learners to begin to develop their:

Knowledge, skills and understanding required in planning, performing and evaluating common practical tasks in electrical and plumbing installations
Understanding of the buildings and structures that constitute the built environment and how they change, and have changed, over time;
Understanding of the trades, roles and careers in the construction and built environment sector;
Understanding of the life cycle of buildings and structures in the built environment and the associated principles and processes at each stage;
Understanding of social, economic and environmental sustainability as appropriate to construction and the built environment;
Knowledge of emerging technologies in the construction and built environment sector;
Employability skills and their understanding of how these are relevant to, and important in, the workplace in the construction and built environment sector;
Knowledge of and ability to apply the principles of working in ways which protect health, safety, well-being and the environment;
The course is delivered by both practical sessions with excellent workshop facilities and theory lessons to underpin the knowledge learnt in the practical sessions. You'll be assessed through practical projects, written and online tests.

Once complete, you'll achieve:

Level 2 Foundation in Electrical Installations

Appropriate supporting qualifications to broaden your skill set and meet the needs of industry

[Skills Activities](#)

[Maths and English](#) qualifications (if not achieved C or above)

What is expected of me?

To enter the course, you'll need a minimum of 4 GCSEs, Grade D or above, to include Maths/Maths Numeracy and English/Welsh First Language or an appropriate Entry Level qualification.

You need to have a desire to work in the construction industry. Full commitment to attendance is required, as is respect for others, enthusiasm for the subject and self-motivation. You'll be continually assessed and there is an expectation that you'll continue your studies and

COURSE INFORMATION LEAFLET

coursework during your own time.

What comes next?

Study on a Level 2 qualification, progression in your chosen trade, employment or an apprenticeship at Level 3.

Additional information

You'll need to undertake a construction industry assessment to help determine the most appropriate course.
