

BTEC National Foundation Diploma in Computing Level 3

In a nutshell

This course aims to blend technical skills with the business, interpersonal and project management skills that are needed not only by the computing sector, but by all the sectors using technology in a modern business environment.

This course is for you if...

- ... You're interested in pursuing a career in computing
- ... You wish to study computing at Higher Education level
- ... You're enthusiastic about the ever-changing technological demands of industry
- ... You want to blend technical and business knowledge.

What will I be doing?

COURSE INFORMATION LEAFLET

You will acquire a combination of computer knowledge and practical skills to meet the ever-changing technological demands of industry. The programme is enhanced to develop your technical skills in systems support, software development and networking. You will study core units in the first year, and then progress to a system support, networking or software development pathway in the second year.

You'll study a very wide range of computing topics, which could include:

Year 1:

- Principles of Computer Science (exam)
- Fundamentals of Computer Systems (exam)
- IT Systems Security and Encryption
- Business Applications of Social Media
- Website Development
- Digital Graphics and Animation

Year 2:

- Planning and Management of Computing Projects (external assessment)
- Software Design and Development Project (external assessment)
- The Impact of Computing
- Computer Networking
- Relational Database Development
- Systems Analysis and Design

You'll be assessed through coursework and exams in the first and second years and you'll achieve:

- Level 3 in Computing
- Appropriate supporting qualifications to broaden your skill set and meet the needs of industry
