

## NPTC PA6 Hand Held Applicators Safe Use Level 2

### In a nutshell

The law states that anyone who uses or applies pesticides commercially, must possess a valid Pesticide Certificate in order to comply with regulations. This legislation isn't optional and it applies to volunteers, employed and self-employed people alike.

There are several common categories in pesticide training. Once you have your PA1: theory certificate, you can then take any other module, making sure that you're legal and safe when using chemicals.

### This course is for...

- ...Anyone working in Agriculture, Horticulture or the Forestry Industry
- ...Anyone working in amenity workplaces, football clubs etc
- ...Anyone who wants to develop their skills and knowledge

# COURSE INFORMATION LEAFLET

## Course content

This training provides essential knowledge for the correct application of pesticide with knapsack sprayer.

This course includes:

- The setting and checking of equipment
- Measuring areas
- Calibrating equipment
- Mix and measure chemicals
