

NVQ Diploma in Insulation and Building Treatments (Construction) Level 3

In a nutshell

The NVQ in Insulation and Building Treatments is official recognition of the knowledge and skills needed to install insulation or carry out building maintenance work. You can choose from a range of qualifications to match your particular specialism such as external wall insulation or different types of floor insulation.

This qualification is universally recognised as proof of competence by both private customers and corporate clients. You will also ensure compliance with the vocational competency requirements of PAS2019&2035 energy efficiency framework which is the widely used throughout the UK.

This course is available as part of a Personal Learning Account (PLA). PLA is an initiative from the Welsh Government which offers people the chance to access free, part-time courses with flexible and convenient learning that fits around their existing lifestyle (subject to eligibility).

This course is for...

COURSE INFORMATION LEAFLET

... anyone aged 19+, living in Wales and in employment. The usual salary limit of £29,534 does not apply to this course.

... those individuals who are involved in the domestic building sector, particularly those who are already involved or are looking to become involved in decarbonisation/energy efficiency projects.

... those working in the construction industry and specialising in insulation and maintenance.

Course content

There are a number of different 'pathways' you can choose for the different trades involved in domestic energy efficiency. We'll work with you to identify the most appropriate 'pathways' for you.

You will be enrolled onto an online system, where you can keep track of your progression, can communicate with your tutor/assessor directly about anything you are not sure about and receive guidance throughout the whole process.

There are no classroom lessons, simply a practical on-site visit by your tutor/assessor. All on-site visits are designed to have minimal impact to your working day.

NVQ Level 3 Diploma Pathways are as follows:

Pathway 1 - Room in Roof (Group RR1)

Internal Wall Insulation
Insulation of Framed Sections

Pathway 1 - Room in Roof (Group RR2)

Loft Insulation
Cold Roof Insulation

Pathway 1 - Room in Roof (Group RR3)

Framed Sections Insulation
Warm Roof Insulation

Pathway 2 - Park Homes (Group PH1)

COURSE INFORMATION LEAFLET

Installing External Wall
Park Homes Insulation

Pathway 2 - Park Homes (Group PH2)

Installing Insulation to Suspended Floors
Spraying Insulation to Suspended Floors

Pathway 2 - Park Homes (Group PH3)

Installing Insulation/Cold Roof
Installing Blown Insulation/Cold Roof

Pathway 3 - Hybrid Wall

Pathway 4 - Insulating Framed Sections of Buildings

Pathway 5 - External Wall Insulation Boarder

Pathway 6 - External Wall Insulation Finisher

Pathway 7 - External Wall Insulation Boarder and Finisher

Pathway 8 - Internal Insulation (Walls)

Entry Requirements

You will be assessed based upon your current knowledge, any questions and professional discussions can be done in your own time. To undertake any NVQ you will need to have prior knowledge and experience of the chosen skill/pathway.

Candidates must have basic level of literacy, be in employment and have access to an observable working situation. Basic IT skills may be required but aren't essential.

Additional information

The National Vocational Qualification (NVQ) is a universally accepted work related qualification. It recognises the skills and knowledge a person needs to do a job. NVQ has a prominent place
