

## Daikin Air Source Heat Pumps Training

### In a nutshell

Daikin Air Source Heat Pump installation training is a one-day course that teaches you the fundamentals you need to know about installing the Daikin 5kW unit. Daikin are one of the biggest manufacturers and suppliers of heat pumps and air conditioning units in the world. Daikin have now come together with GN Group Ltd and Robert Price to establish a local Daikin Air Source Heat Pump Training facility in Newport.

This training course will focus on the most widely used heat pump (Daikin Small Monobloc), teaching you the foundations and knowledge you need to work with these heat pumps. You'll also have the opportunity to see a huge range of green technologies at the Sustainable Energy Centre during the course.

This course is available as part of a Personal Learning Account (PLA). PLA is an initiative from the Welsh Government which offers people the chance to access free, part-time courses with flexible and convenient learning that fits around their existing lifestyle (subject to eligibility).

### This course is for...

Apply online at [www.coleggwent.ac.uk](http://www.coleggwent.ac.uk)

## COURSE INFORMATION LEAFLET

... anyone aged 19 +, living in Wales, employed, and earning less than £29,534 per year

... heating engineers (and those associated with heating installations e.g. electricians)

... those wanting to become involved in the move towards heat pumps and low carbon heating solutions.

### Course content

On this course, you'll receive an overview of the Air Source Heat Pump, including:

Heat Pump installation requirements and procedures

Heat Pump start-up procedures

Introduction to heat pumps and their inner workings

Interactive training Q&A with trainer

Working scenario examples

There'll be short questions at the end of each session and a final course assessment at the end of the day.

The course is a balance between classroom-based teaching and working on live products, all within the bespoke training facility in Newport.

### Entry Requirements

To enter this course, you'll need to possess previous knowledge of heating system installations.

### Additional information

Arrival at the venue in Newport is between 8.30 - 9.45 am.

Refreshments (tea, coffee, bottled water) will be available, free of charge, throughout the day. Lunch will also be provided (all dietary requirements catered for).

All stationary provided.
