CompTIA Network+ (N10-008)

In a nutshell

CompTIA is the world's largest vendor-neutral IT certification body. If you wish to fast-track your career towards IT infrastructure, then achieving your CompTIA Network+ certification is essential.

This CompTIA Network+ course is internationally recognised by employers, making it the ideal qualification for candidates who are working towards a career in the IT or Cyber Security sector, as well as individuals who are already working as IT professionals and want to keep their knowledge of networking up-to-date.

This course is available as part of a Personal Learning Account (PLA). PLA is an initiative from the Welsh Government which offers people the chance to access free, part-time courses with flexible and convenient learning that fits around their existing lifestyle (subject to eligibility).

This course is for you if...

... anyone aged 19+, living in Wales and in employment. The usual salary limit of £30,596 does not apply to this course.

... any IT professional who is looking to specialise in networking and open a new avenue of their career in IT networking or support.

What will I be doing?

By the end of this course, you'll have developed the skills to confidently and independently manage, troubleshoot and configure the networks of an organisation.

The Official CompTIA Network+ course covers the following:

Networking Concepts
Infrastructure
Network Operations
Network Security
Network Troubleshooting and Tools

Additional information

This course is delivered by virtual classroom. Virtual classrooms are equivalent to face-to-face classroom courses, but delivered in an online environment.

You will need to put aside 5 days to attend this course.

The course includes exams which are invigilated online and you need to have access to an internet enabled device with a microphone and a webcam.
