

Certificate in Higher Education â€” Community Health and Wellbeing

In a nutshell

You will learn about about human anatomy and physiology, community health issues, healthcare law and ethics and develop a range of practical skills for use in community health and wellbeing. You will improve your general communication, team working, time management and IT skills so that you are able to work in a range of settings.

This course is specifically designed for a career in public health or social care management or to support you to potentially progress onto a health course at university such as nursing, midwifery and paramedic science.

This course is for you if...

- ... You currently work in the health and care sector or aspire to
- ... You want to further develop your career
- ... You're considering further progression onto a another course allied to health care

COURSE INFORMATION LEAFLET

What will I be doing?

During the academic year you will complete modules including:

Investigating Health and Wellbeing
Law, Ethics and Policy
Professional Development 1
Human Health and Disease
Study Skills for Higher Education

Methods of assessment whilst you are on the programme:

Assessment methods that you will engage with during your time studying with us include report writing, presentations, developing academic posters, reflective writing, work-based portfolios, literature reviews, analysing complex cases and managing change. Other methods used are essays, MCQ tests, presentations, poster presentations, assessment centre tests, exams and group work.

Following successful completion of the course you will be awarded a Certificate of Higher Education at Level 4.

Additional information

This course is franchised by the University of South Wales.

You may require books from a reading list, however you will be encouraged to use the library and online resources.

We regularly revalidate courses for quality assurance and enhancement.

At Coleg Gwent, we regularly review our courses in response to changing patterns of employment and skills demand to ensure we offer learning designed to reflect today's student needs and tomorrow's employer demands.

If during a review process course content is significantly changed, we will write to inform you and talk you through the changes for the coming year. But whatever the outcome, we aim to equip our students with the skillset and the mindset to succeed whatever tomorrow may bring. Your future, future-proofed.
