Fixing a PC / PC Maintenance

In a nutshell

If you've ever wanted to have the ability to fix a laptop or PC, now's your chance! This course is the ideal introduction to solving hardware and software problems, opening up the world of computing and systems support.

This course is for...

...those who want to start exploring computing and systems support.

Course content

This is a practical course covering various aspects of fixing laptops and PCs, covering:

Troubleshooting common issues with PCs
Using recognised fixes for the most common errors
Maintaining and optimising the performance of your PC
Problem solving

There's a formal practical test at the end of the course to demonstrate understanding, which will allow you to receive a Coleg Gwent certificate.

Entry Requirements

All you need is an interest in this area and a willingness to learn.

Additional information

Why not continue to explore the world of computing, and enrol on one of our many part time or full time IT and Computing courses?
