

NPTC PA6 Hand Held Applicators Safe Use Level 2

In a nutshell

PA6 is needed by anyone wishing to apply pesticides using a handheld lance or knapsack type applicator. The lance may be vehicle-mounted e.g. on a tractor or ATV.

This course is for you if...

This training provides essential knowledge for the correct application of pesticide with knapsack sprayer:

- The setting and checking of equipment
- Measuring areas
- Calibrating equipment
- Mix and measure chemicals
- Cleaning and storing equipment

What will I be doing?

COURSE INFORMATION LEAFLET

Building on the topics covered in the Chainsaw Maintenance course including current legislation, fundamentals of chainsaw operation and safe use and maintenance of the chainsaw, this course goes on to include the felling of trees up to 380mm in diameter.

On completion, you could go on to study the NPTC CS32, CS38 and CS39 courses.

Additional information

This is a 3 day course (2 days training and 1 day assessment).

You'll study via in-class and practical learning.
