

City and Guilds Certificate in Felling and Processing Small Trees Level 2

In a nutshell

Ideal if you're in an outdoors profession or working in agriculture, this course teaches you the essential skills associated with felling small trees.

To include directional felling of trees up to 380mm, taking into consideration the tree size, weight, condition and species. This will include felling of upright trees as well as 'hung up' trees and those that are weighted to a specific direction.

This course is for you if...

...a career in an outdoor job, such as gardening, woodland management or agriculture

...those who've already taken the NPTC Chainsaw Related Operations course on chainsaw safety, maintenance and cross cutting.

What will I be doing?
