

## **COURSE INFORMATION LEAFLET**

# EAL Subsidiary Diploma in Engineering Technologies (Fabrication and Welding) Level 3

### In a nutshell

This course provides the knowledge and practical skills for a range of job roles in welding and fabrication. It is structured around the level 3 Engineering apprenticeship framework.

## This course is for you if...

- ...You're interested in learning about Welding and Fabrication
- ...You're looking for an apprenticeship in Welding and Fabrication
- ...You have a grounding in Welding and Fabrication and want to take it to a more advanced level
- ...You'd like to start a career in welding and fabrication.

## What will I be doing?

## **COURSE INFORMATION LEAFLET**

For this Diploma, you'll study five units:

Health and Safety Welding and Fabrication Principles Manual metal-arc (MMA) welding Manual metal-arc (MMA) welding Tungsten inert gas (TIG) welding process

In addition, you'll also cover 2 practical NVQ units.

The course is assessed through a range of methods including:

Practical workshop activities Short written tests Online multiple-choice exams

You'll also develop your employability skills and have the opportunity to retake your Maths/English GCSE where appropriate.

#### What is expected of me?

To enrol on this course, you'll need:

A suitable level 2 Engineering/welding qualification and GCSE grade A\* to C in Maths.

Full commitment to attendance is required, as is the ability to work independently and as part of a team. You should also have a strong desire to work in the engineering industry, abide by the college ethos and be willing to participate in improving your level of academic subjects.

#### What comes next?

The course is designed to lead learners towards an apprenticeship in fabrication and welding.

## **Additional information**

You'll need Personal Protective Equipment, such as boots and overalls, the cost of which is

## **COURSE INFORMATION LEAFLET**

approximately £40. You'll also need to supply your own stationery and folders.
