

# City & Guilds Diploma in Light Vehicle Maintenance and Repair Principles Level 2

### In a nutshell

This course enhances your technical and academic knowledge of vehicle technology, preparing you for further study or work in the automotive industry.

### This course is for you if...

- ... You've completed the Level 1 Diploma in Light vehicle maintenance and repair
- ... You have a keen interest in vehicles
- ... You're good at problem-solving
- ... You want to work in the automotive industry.

### What will I be doing?

## COURSE INFORMATION LEAFLET

This course will provide an intermediate study of the technology and repair techniques associated with light vehicles and it will also prepare you for further study in the automotive industry.

There are five technical units broken down into chassis technology, engine technology, transmission technology, electrical and electronic technology, and general aspects (such as health and safety).

The course is delivered through:

- Practical demonstrations
- Realistic working tasks
- Lectures to develop foundation knowledge
- Assignment work

You'll be assessed through practical and written assignments, and upon completion of the course, you'll achieve:

Level 2 Light Vehicle Maintenance & Repair Principles  
Appropriate supporting qualifications to broaden your skill set and meet the needs of industry
